

June 1, 2026

Dear Valued Member:

At United Electric Cooperative, our mission has always been to provide safe, reliable, and affordable electric service to the members we serve. We take that responsibility seriously and work every day to maintain the quality of service our members expect.

Like many of you, United is feeling the impact of inflation. Increase in fuel, materials, and wholesale power costs have been absorbed to the best of our ability. However, at this time a rate adjustment is necessary. United's Board of Directors, after careful analysis, has approved a 5 percent rate adjustment effective with July's usage. Members will begin seeing this change reflected on bills received in August.

United's diversified business model has allowed us to keep rates steady for eight of the last ten years. We take seriously our commitment to provide reliable power at a reasonable cost and continually look for efficiencies.

For more information regarding the rate adjustment, please visit www.ueci.coop/rates or contact our Member Services Department at 800-748-1488.

Sincerely,

Chief Executive Officer
