

**United Electric Cooperative, Inc.**  
**RATE 6**  
**Public Street and Highway Lighting**

EFFECTIVE: March 24, 2016

APPLICABLE TO: Multiple Street Lighting

**AVAILABILITY**

Available to cities, villages and sub-divisions for controlled multiple street lighting systems, subject to the established rules and regulations of the cooperative.

**MONTHLY RATE**

Lamp Size:

250 Watt Cobra Head w/Galvanized Pole.....\$6.50/per house

**CONDITION OF SERVICE**

The cooperative will furnish standard street lighting, for a monthly charge per home, in any platted city, village or sub-division.

Standard street lighting shall be defined as one street light for every four or more homes, placement to be determined by the cooperative. Each fixture shall consist of one 30 foot galvanized pole, one 6 foot luminaire arm and one 250 watt cobra headlight.

The cooperative will install decorative lighting, however, all costs above and beyond that of a standard street light shall be paid for by the city, village or developer prior to installation.

**TERMS OF PAYMENT**

If a bill is not paid by the specified due date, a late payment service charge, as specified by Board Policy, shall apply.

**GENERAL RULES AND REGULATIONS**

Electric service supplied under this schedule shall be subject to such additional terms and conditions as may be adopted from time to time by the cooperative's Board of Directors.

### **MINIMUM MONTHLY CHARGE**

The minimum monthly charge under this rate shall be the highest of the following charges:

1. The contract minimum.
2. The billing demand charge.

### **CONTRACT**

Service under this rate requires execution of a contract for service which will specify the term, and may provide for such minimum bill, facilities charge, maintenance and rental charges, deposit, and other items as agreed to by the parties. The contract will provide for application of this rate schedule as it may be amended, from time to time, by action of the cooperative's Board of Directors.

### **DELIVERY POINT**

Refer to contract.

### **DEMAND AND POWER FACTOR METERING**

The rate schedule provides for measurement of kW demand and power factor. The cooperative shall have the right to make such measurements by test at any time, or install meters permanently, or agree with the member on estimated kW demand and power factor to be used for billing.

### **TERMS OF PAYMENT**

If a bill is not paid by the specified due date, a late payment service charge, as specified by Board Policy, shall apply.

### **GENERAL RULES AND REGULATIONS**

Electric service supplied under this schedule shall be subject to such additional terms and conditions as may be adopted from time to time by the cooperative's Board of Directors.
